Founder Dean

Faculty of Management Studies (FMS), University of Delhi

FMS in Historical Context

Shortly after independence, a band of visionaries led by Professor V.K.R.V. Rao and supported by then Prime Minister Pandit Jawaharlal Nehru, were fired up by the ambition to create a centre for advanced learning and research in the social sciences comparable to the best in the world and worthy of an independent subcontinent.

Thus, in 1948 the Delhi School of Economics (DSE) was conceived on the lines of the London School of Economics. Subsequently, when Prof. Rao became the Vice-Chancellor of the University, the process of setting up four new departments, namely, Sociology, Geography, Business Management, and Commerce, was initiated.

Prof. Dasgupta was inducted into the Delhi School of Economics (DSE) by its founder, Prof. V.K.R.V. Rao, to nurture the newly constituted Department of Business Management and Industrial Administration. Like his mentor, Prof. Dasgupta too was an institution builder par excellence. His dream and vision was to take the Department to the status of a full-fledged Faculty, a leading University-based institution of management education with the stature of an internationally known School of Business.

Guided by the vision of its founders, FMS places the highest importance on maintaining excellence in teaching, research, mentorship, and collaboration with industry and government.

Leading From the Front Since 1954

Faculty of Management Studies (FMS), Delhi is one of the oldest B-Schools in the country, established in 1954 under the aegis of the University of Delhi. The institute was started as a part of the Delhi School of Economics and has grown to be a full-fledged management institute. Being a part of a University system, it has been contributing to the industry, business, government, and social sector on par with leading business schools. Having started with an evening Masters Programme in Management in 1954, it commenced its MBA (Full-Time) Programme in 1967. FMS went on to establish Shanti Prasad Jain Advanced Management Research Centre at the University of Delhi-South Campus to promote research and training of managers from India and abroad in the year 1982.

The institute over the years has gained prominence for its learned faculty and students who today occupy coveted positions in the corporate world, both in India and abroad. Keeping in mind the need of the society and industry, FMS increased intake to its MBA (Full-Time) Programme from 60 to 90 in 1991. The Golden Jubilee Year of FMS in 2004, witnessed launch of another two year full-time programme namely MBA (Management of Services) with an intake of 40 students. In 2011, it merged its two full-time programmes. FMS offers four distinct academic programmes viz. MBA (Full-Time), MBA Executive, MBA Executive (Health Care Administration), and Ph.D. in Management.

A Transformational Journey of Rich & Experiential Learning

The business world around us is evolving rapidly, and change is perhaps, the only constant. The intensity and speed with which the forces around us are shaping our environment are immensely complex and challenging. Thus, it has become all the more important for us to be able to think strategically and master core business disciplines in order to become the true leaders of innovation and change.

Over the past 70 years, FMS has helped shape diverse personalities and unique talents in order to imbibe the spirit of achieving excellence. The intellectual rigour and exposure that FMS students receive is immense. FMS has carried forward its legacy of 70 years by unifying academics with leadership skills, providing practical experience and training, and most importantly, helping one attain the heights one aspires to reach.

What sets the MBA programme at FMS apart from any other institution's, is the ideal mix of opportunities, corporate exposure, and the kind of conducive academic environment that allows the students to realize their dreams, with the flexibility in the curriculum. This journey has truly been transformational for all who have been part of the FMS legacy. The intense mentorship programme and spectrum of activities carried out, instill within every individual the values and culture that this B-School has stood for over all these years.

At FMS, the liberty to initiate new activities and the collaborative spirit of students makes it possible for numerous such efforts to bear fruit every year.

Those who have walked through the hallowed portals of FMS will agree that this institution teaches you to take risks and not be afraid to fail. It also imparts the true value of human relationships and how success is driven by it. We are confident about achieving our goals, but we value our failures just as much as our achievements. FMS respects and appreciates your passion and fuels it, so that wherever you go, you leave behind a mark - the mark of a winner.

The combination of a flexible curriculum, a wide array of learning opportunities and a conducive academic environment is the hallmark of this institute. The transformational journey starts from day one and a new entrant is introduced to the culture and values of FMS through an enriching classroom experience and intense mentorship programme. The learner is empowered to collaborate as well as take independent initiatives throughout the year. As much as it is possible to sum up a community, this is FMS having balanced individuals who approach work and play with equal intensity; confident achievers who are brave enough to make mistakes and humble enough to accept them; and dreamers who are grounded enough to know that getting to the top is more fun when the journey is shared. It is this drive and enthusiasm that differentiates and distinguishes us from all others, giving us the winning edge - wherever we go, whatever we do.

Programme Structure:

MBA—the two-year full-time programme is designed with the objective of developing young men and women into highly adept professional managers, capable of working in diverse sectors, continuously striving for excellence in performance, while propagating thought leadership and contributing to the welfare of the society at large. The curriculum of the continuously evolving MBA - two year full time programme rests on two pillars: one, providing a strong analytical foundation in key functional areas and the other, enabling a high degree of academic flexibility, thereby allowing students to customize their MBA experience. The first year introduces students to the essential models and tools, with a focus on rigorous training in the diverse disciplines in management and the development of a strong foundation of business knowledge and management theory. The year concludes with a rigorous Summer Internship programme which allows students to explore practical application of the management concepts.

In the second year, the students decide on their professional development plans by reflecting on their first year's learning and Summer Internship experiences. This experience is augmented by interactions with an eclectic mix of worldrenowned faculty and corporate luminaries who together teach core and elective courses. After two years of 360 degree learning, the students move on to realize their dreams in the corporate world. The programme nurtures and develops world- class business leaders with personalized care and attention, in small work groups and teams and in a practical, application-oriented environment. Every year aspirants avail the opportunity of realizing their mettle in one of the most rigorous selection processes.

At FMS, the MBA course structure is closely aligned with the contemporary business requirements. The focus is on producing managers with sound fundamentals to hit the ground running when they enter the corporate world. The programme empowers students to demonstrate the ability to innovate, the ability to execute the most daunting challenges in the most trying of circumstances, the ability to create synergies amongst the most diverse set of variables and the ability to continuously learn, improvise, adapt, energize, excel and grow.

There is a lot to learn by involving oneself in various functional responsibilities, activities of the societies, community responsibilities as well as projects that companies offer on the campus. To this end we intend to judge ourselves by the most demanding of standards; to attract people of intellect and ability from all types of backgrounds and to encourage students to be bold, independent and creative thinkers.
